

# Ring Sizer

\*UNCHECK ALL "SCALE TO FIT PAGE" CHECKBOXES WHEN PRINTING\*

(Tip: Cover ring sizer with a strip of scotch tape before cutting out to strengthen.)

## Instructions:

- Measure the bar at the bottom of the page to ensure it is exactly 2 inches, or 50 MM.
- Print and cut out ring sizer. Cut small slit that is marked with an arrow.
- Place ring sizer comfortably around finger by slipping pointed end through the slit, numbers facing out.
- Secure the ring sizer by pulling the pointed end snugly around your finger like a belt, tight but can still move it around. Be sure it's not too tight or too loose.
- Your approximate ring size should be the number that appears where it says "Read Size Here".
- Avoid measuring cold fingers as this is when fingers are at their smallest.
- Measure your finger when it is at it's largest at the end of the day.

Measure your finger by wrapping a string around it. Find the length of the string that makes exactly one loop around, and use the chart below for reference.

If the finger is not available for measuring (ie a surprise gift), use a ring from the individual's current jewelry collection. Place the ring on a circle within the chart below. The correct circle size should fit right against the inside edge of the ring. -If the ring falls between two sizes, order the larger size.
